

FOR CLEVELAND.

RHODE ISLAND'S DELEGATES
INSTRUCTED FOR HIM.

THE CONTEST A VERY WARM ONE.

Democratic Straws—Results of a Congressional Campaign by the New York Herald—Senator Hill Receives Many Pressing Invitations to Visit Different Places in the South.

PROVIDENCE, R. I., March 3.—The Democrats of Rhode Island met yesterday to nominate state officers and to select delegates to the national convention.

A resolution was presented by Samuel D. Honey and referred to the platform committee instructing the delegates to the National convention to vote for Cleveland. It was received with great enthusiasm.

Two hours were spent in deciding a contest and then the temporary organization was made permanent.

The platform reported to the convention demands free raw materials; it approves the Springer wool bill and urges its early passage, and favors the placing of iron, coal and timber on the free list.

Upon the coinage question it reads: "Every dollar of American money, whether gold, silver or paper, ought to be of equal value the world over."

The repealing of the Sherman coinage act is favored because of its failure to accomplish results desired, and for a like reason free coinage of silver is opposed.

The platform closed with Mr. Honey's resolution of instruction.

Nominations for governor being called for the faction led by Mr. Honey and accredited to Cleveland presented the name of David U. Baum, jr., of South Kingston.

Ex-Lieutenant Governor W. C. T. Wardwell of Bristol was placed in counter nomination. A warm discussion, thick with personalities, followed. The vote cast was: Wardwell 127, Baum 96. Wardwell was declared the nominee.

At 4 o'clock the platform was framed by the committee and was unanimously adopted without discussion, together with the resolution instructing the national delegates to vote for Cleveland.

The convention lasted eight hours and was the longest and most bitterly fought Democratic contest ever held in this state.

DEMOCRATIC STRAWS.

Results of a Congressional Campaign by the New York Herald.

New York, March 3.—The Herald's Washington correspondent has been preparing a table showing Democratic presidential preferences based upon interviews with congressional representatives.

The compilation is made on a basis of 900 delegates in the national convention of which the Herald's classification is as follows: Hill, 265; Cleveland, 265; for some Western man, 350.

Mr. Cleveland seems to be the choice of fifteen states, California, Connecticut, Delaware, Maine, Massachusetts, New Hampshire, Ohio, Rhode Island, South Dakota, Vermont, Ohio, Washington, West Virginia and Wisconsin.

Mr. Hill is said to be the choice of ten states, Colorado, Florida, Idaho, Maryland, Mississippi, New Jersey, New York, Pennsylvania, South Carolina and Texas.

THE SOUTH WANTS TO SEE HIM.

Senator Hill sent invitations from several points—Pat in a Dilemma.

WASHINGTON, March 3.—The indications are that Senator Hill's trip to the South will assume far greater proportions than was originally supposed by its promoters.

Invitations from all parts of the South have been coming in thick and fast, and he was confronted with considerable embarrassment in his desire to respond favorably to them all.

The Southern friends of Mr. Hill in congress are urging him to change his programme so as to include stops at all the large cities from which invitations may come and although the senator will likely not announce his determination for a day or two, they believe this kind of programme will be ultimately adopted and the Southern trip made the occasion of a series of political orations.

After Jerry Simpson's Seat.

TOPKA, Kan., March 3.—Senator Chester I. Long of Medicine Lodge, the home of Congressman Jerry Simpson, has announced his candidacy for the Republican nomination for congress in the Seventh district.

Senator Long is the third Republican in the Seventh district to announce his candidacy, James R. Halliwell of Wichita and Henry Booth of Larned having come out some time ago. J. P. Jones of Hutchinson is also spoken of in connection with the nomination, but he has not yet declared himself. J. R. Burton and Ed. Greer are announced as candidates for congressmen at large.

Price Not a Candidate.

ATCHISON, Kan., March 3.—M. Price, of Atchison, has decided not to go before the Republican state convention for the nomination for governor.

The Senate and Free Coinage.

WASHINGTON, March 3.—Senator Jones of Nevada was in his seat yesterday for the first time since the holidays. In a private conversation to-day he said: "I've made pretty general inquiry among my colleagues since I came back and a free coinage bill will pass both houses. The president, however, will probably veto it."

Robbed and His Arm Cut Off.

PARSONS, Kan., March 3.—Last night young Wright of Beagles was on his way to the Missouri, Kansas and Texas depot. When just a few yards north of the platform he was knocked down and robbed of \$300. He fell near the track and one arm was across a rail. A moving train passed over that member, cutting it off at the elbow.

SHOT BY HIS WIFE.

Sensational End of Family Troubles of a Detroit Business Man.

DETROIT, Mich., March 3.—Charles W. Ayres, a prominent business man and formerly a partner in the Richmond Backus company, was shot and fatally injured last evening by his wife, Anna D. Ayres, at their residence.

The cause of the tragedy runs back through a number of years, but the climax was brought about through the supreme court rendering a decision dismissing Mrs. Ayres' suit for divorce, which was first filed last October, and dissolving the injunction restraining Ayres from entering the family residence.

Ayres in consequence thereof went to his house and proceeded to pack up his personal effects. His daughter remonstrated and he grew excited. Mrs. Ayres soon came in from the street and a scene followed, the details of which have not yet been ascertained, but as Ayres left the house his wife fired six shots at him, but did not hit him. As he was on the veranda she fired again, the ball entering the left breast and lodging in the lungs. Ayres is not expected to live.

MISSOURI'S SOLONS.

The House Discusses the University Matter—Senate Delays.

JEFFERSON CITY, Mo., March 3.—The house spent all day yesterday debating the resolution of Mr. Fogle to accept bids from towns aspiring to secure the university. No decision was reached.

The Senate's Session but Brief.

JEFFERSON CITY, Mo., March 3.—The senate's session lasted only thirty minutes. Mr. Clay introduced a bill appropriating \$100,000 for the rebuilding of the university and Mr. Stephens a bill fixing the salaries of the circuit judges at \$2,500.

The committee on judicial districts presented a substitute for the senate bill fixing the salaries of judges as follows: Supreme court judges, \$5,000; circuit judges, \$2,500; judge criminal court of Sixth district, \$2,000.

Reducing the Judicial Districts.

JEFFERSON CITY, Mo., March 3.—The senate committee on judicial districts has agreed upon a substitute for the house bill. The substitute makes only 26 districts, cutting out two south of the river and three north of it. Some of the districts are pretty large, but contiguity of territory has been considered all the way through.

GUATEMALA'S DAYS DARK.

A Reign of Terror in the Central American Republic.

CITY OF MEXICO, March 3.—A correspondent in Guatemala writes as follows: "The feeling against Barrillas is increasing. Two attempts to assassinate him have been made within a week. The friends of Reina Barrios are inciting a rebellion. Unless Barrillas makes concessions his downfall is inevitable. If Barrios, the known enemy of Salvador, becomes president Barrios is prepared for fight. The strictest press censorship is exercised. Barbarous cruelties are perpetrated on opponents of Barrios when caught."

PERISHED AT SEA.

Forty Newfoundland Sealers Caught in a Blizzard.

St. John's, March 3.—On Saturday last 20 men went out sealing in boats from Trinity bay. The thermometer fell to zero and a terrific snow storm came on. The sealers struggled hard for port, but were unable to cope with the wind and snow, cold and an angry sea. They had no extra clothing and their small boats furnished no shelter. Some were taken far out to sea while others were frozen upon the ice where they were taking the seals. Many died in their boats.

Seventeen of the sealers were rescued by boats which put out from Trinity bay to their assistance. These were found exhausted and in a pitiable plight. Some of them died before they could be brought ashore.

Thirteen bodies were found frozen in their boats, which were covered with ice and had to be cut out. It is estimated that fully forty men have perished.

SOUTHERN IRON IN A CRISIS.

Vast Quantities Unsold and Workmen's Wages to Be Reduced.

BIRMINGHAM, Ala., March 3.—The crisis of the fight between Pennsylvania and Alabama in iron production has arrived. The market has gone to pieces and Birmingham furnaces have over 100,000 tons in their yards. The railroads have been called on to reduce freight to the lowest possible point and a reduction of 10 per cent in wages has been determined on. Representatives of the three leading companies have gone on to New York to consult with eastern stockholders and directors of railroads interested in this section. Many of the furnaces continue in full operation.

A DESPERATE WOMAN.

After Administering Poison to Her Child She Takes the Morphine Route.

CAIRO, Ill., March 3.—Mrs. Nettie, a widow, aged 29 years, committed suicide last night at the residence of her sister, Mrs. J. C. Clark. She arrived from Union City, her former home, last night, and before retiring she administered wine poisoned with morphine to her little daughter, aged 12 years, after which she took a large dose herself, from the effects of which she died. The daughter will recover. No cause is assigned.

ELUDED THE MOB.

Deputy Sheriffs Save Marshal Sprinkles' Slayer From a Lynching at Dexter.

DEXTER, Mo., March 3.—To the surprise of our people Amos Miller, the murderer of Marshal Sprinkles, is alive and in jail at Bloomfield. He was taken there by Deputy Sheriffs Mays and Cleveland and posse. No one doubted for a moment that he would be hanged or shot, but the cooler judgment of the people governed and they concluded to let the law, rather than revenge, execute Miller.

In the Field Against Hatch.

EDINA, Mo., March 3.—Ex-State Senator L. F. Catter yesterday announced himself as a candidate for the Democratic nomination for congress against Mr. Hatch.

A STRIKE PRACTICALLY OVER.

A Receiver Takes Charge of the Indianapolis Street Railway.

INDIANAPOLIS, March 2.—The street railway strike was practically settled at midnight last night when Judge Taylor of the superior court appointed Thomas Steele, the assistant superintendent recently discharged by President Frenzel receiver of the company. The petition for a receiver was filed by W. P. Fishback. It recites the causes of the strike, declares that a continuance will result in bloodshed and alleges that the directors are incompetent to operate the line. Receiver Steele gave bond in \$100,000.

Receiver Steele promised to have the cars running this morning, but as he has secured possession of but one barn—the one on Pennsylvania street—his promise has not yet been fulfilled. All the other barns have been securely locked and barred by the company.

HEADED BY THE EMPEROR.

Francis Joseph Leads a Subscription for the Relief of Vienna's Poor.

VIENNA, March 2.—The list of subscribers to the burgomaster's fund for the relief of the unemployed is headed by the emperor with a contribution of \$2,500. Springer Bros. give \$5,000. There was another free distribution of bread to the needy yesterday.

The inhabitants of Arva, the northern most country of Hungary, are suffering from typhus and other deadly diseases in addition to the famine which prevails there. The people are reduced to such straits for food that they are compelled to eat the bark of trees and pine cones. The president of the lower house of the Austrian diet has announced that he has made arrangements to send relief to the suffering people.

GARZA WANTS TO QUIT.

His Father-in-law Confering With General Stanley.

SAN ANTONIO, Tex., March 2.—It has now come to light that primarily the mission of General Stanley is to visit this city with a father-in-law, in visiting this city was to confer with General Stanley, and under certain conditions arrange for a surrender of Garza to the military authorities. The matter was delicately broached to the general through attorneys, but he refused to entertain any proposition other than an unconditional surrender.

McCreery, the Quintero May Offender.

VALPARAISO, March 2.—The charges against Consul McCreery and Lieutenant Harlow attract much attention. Data relating to McCreery's alleged transactions in exchange—obtaining news from Minister Egan and using the same for his own advantage—have all been forwarded by mail for publication in the United States. The criminal court is still investigating the Harlow affair. Dr. Trumbull declares that Consul McCreery gave the news to various parties, relating to the landing at Quintero bay, for which Admiral Browne was blamed.

Missouri's World's Fair Building.

JEFFERSON CITY, Mo., March 2.—The Missouri world's fair commissioners met at the governor's office to-day. No business of importance was transacted. Commissioners McGowan, Green and Frank will leave for Chicago this week with eight sets of plans selected from the number submitted. They will ask a committee of architects employed by the world's fair to select one set of plans for the Missouri building at Chicago.

GOOT HIS LOBSTER BACK.

The Lady Passenger Who Caught It Had No Further Use for It.

There came near being a riot on a Fulton ferryboat the other day, and for a while it looked as if Secretary Blaine would have to be called upon to settle another international difficulty.

A woman of certain age attached to a little dog leaped upon a seat in the ladies' cabin, and the dog crawled under the seat and went into executive session.

A Frenchman attached to a basket entered, took a seat beside the woman, shoved his basket under the seat and began to envelop the contents of his newspaper.

Suddenly the woman began to wriggle. She toyed with her skirts.

"Don't be rude, Fido!" she whispered, as she gave the dog chain a little jerk.

Then the woman turned as pale as a plate of vanilla ice cream. She gave the chain a hard jerk and said screechingly:

"Lie down, Fido! Behave yourself, sir!"

All the passengers sniggered and the woman gasped. Then she jumped up, with a shriek, and began to spank her skirts and jump about as if somebody was pulling the string. Then she spanked harder, shrieked louder and danced more vehemently. As she swung around and balanced to corners the dog resembled a rag pin-wheel.

As she saw the dog she realized the fact that Fido wasn't the cause of the festivities, and she turned two shades paler, spanked more emphatically, danced dancier and shrieked shriekier.

Then the citizen became interested. An idea appeared to strike him. He reached under the seat and introduced his basket. He lifted the cover. Then he looked well informed.

"Madame," said he, without moving an eyelash, "when you are through with my lobster will you kindly return it to me?"

There was a last wild, weird shriek, a final jump and the woman collapsed. Then the citizen chased a lobster under the seat, captured it and placed it in his basket. The woman and Fido passed out of the cabin and the irate crowd roared until it looked as if it was wearing red flannel skating caps.—New York recorder.

—Of course a fellow is pushed for a time when an officer hustles him in to a penitentiary.—Binghamton Republican.

A PRISON IN FLAMES.

Indiana's Woman's Prison and Reform School for Girls Burned.

INDIANAPOLIS, Ind., March 2.—The state woman's prison and reform school for girls burned here last night. The building was entirely destroyed.

The institution was situated in the center of a five-acre field on the eastern edge of the city. It was a model prison, and one of the most noted in the country. When the fire was first discovered, Miss Kelly, the superintendent, took the inmates of the reform department in the yard. These were taken back when the fire was supposed to be under perfect control. Upon the discovery that the flames had communicated to the stairway and up to the roof, the girls were once more ordered to the yard and were guarded by a half dozen attendants. In this portion of the institution there 157 inmates. From those confined in the prison department, the trouble was anticipated by the officers. Miss Kelly went into the hallway and in a loud tone called the attention of the prisoners to the fact that the building was on fire. "I am going to unlock these cells, but I want you to promise me that you will stand by me and not one escape."

The women with one voice promised this, and the doors were flung open. The fifty-three prisoners hastily followed Miss Kelly through the hallways and to the grounds where they were placed in charge of the attendants. Of the inmates of this department there are eight who have been sentenced for life and a half dozen or more, for long terms. Others were for minor charges, for grand and petit larceny and several for abduction.

The fire was of incendiary origin. Three girls, it is claimed by other inmates, conspired to gain their freedom by creating a stampede. The loss will exceed \$300,000, with an insurance of but \$51,000.

THE DEXTER TRAGEDY.

Marshal Sprinkle Dies and Murderer Miller is Captured—May Be Lynched.

DEXTER, Mo., March 2.—Marshal Sprinkle died yesterday from the effects of the wounds he received in the dreadful affray of last Saturday, being the third victim of the tragic occurrence. Miller, who caused the three victims to lose their lives, was arrested at Campbell, brought to this place, and is now lodged in jail here. The law may be allowed to take its course, but there are mutterings of distant thunder and indications of a coming storm that forebodes ill to Miller. There are nearly or quite 200 armed men here from the neighborhood of Malden and Bloomfield. Miller looks terribly worn and haggard from the effects of his wound and from exposure to the weather, which has been rainy and cold since a few hours of his escape. He declares his innocence; says Murphy, alias Moore, did all the shooting, but Marshal Sprinkle stated on his deathbed that it was Miller who shot him, and others who saw it say the same. Business has been entirely suspended here, the business houses being closed, and craps hangs from every door. Miller is a very bad man. He was born in this county, but has been in the Indian Territory since a young man until about a year ago, and is under bond at this time for stealing a horse from a neighbor last summer. He had recently been to the Nation, and the man Moore returned with him. It is believed they were members of a regularly organized band of horse-thieves.

THE SMOKE PROBLEM.

Valuable Franchises Granted to a New Company by Chicago's City Council.

CHICAGO, March 2.—The city council last night passed an ordinance, 46 to 16, permitting the Chicago power supply and smoke abating company to lay pipes, as a local paper expresses it, "for almost any purpose the ingenuity of man may invent, in the streets or avenues, or place them in the air." There are suggestions of boodle. The principal supporter of the ordinance promises that with the advent of the new company Chicago's smoke problem will be solved. The company is granted power to construct and operate works for the manufacture of compressed air, and motors and fittings for same, and for pneumatic appliances within the city.

HIS REAL WORTH.

An Old Man Who Was as Good as Real Estate.

Among the many advantages possessed by a man who reaches a "good old age" in a small country place is the respect and admiration of all the right minded younger members of the community. Unless he is undeniably "feeble minded," his advice is in great demand, says Youth's Companion.

It was conceded by all who were present at the time, that Abijah Stokes made "th' neatest turned speech" in regard to Mr. Wilson Fawcett, the ninety-four-year-old pride of Brambleville, that could well have been imagined. It was at the county fair at Highbury Center. A former resident of the place inquired of Abijah about the people whom he used to know.

"Let's see," he said meditatively, "how long ago did Wilson Fawcett die? He was a pretty old man, wasn't he?"

"Wilson Fawcett," said Abijah, deliberately, as if he enjoyed the probable effect of his speech, "is still livin' or was when I left home this mornin'." I set out 't fetch him over here 't 'th' fair, along with me, ef 'he'dn't been such a sharp mornin'." He enjys a jaunt now an' then with 'th' best on 'em."

"You don't mean to say he's still alive!" ejaculated the other, in a tone of gratifying amazement. "Why how old is he?"

"We c'n sider, over 't Brambleville, thet Wilson Fawcett's a real ornament 't all on us," said Abijah, with real earnestness. "He's turned 94; he's all his faculties is hale an' chipper, an' liable 't be spared for some years, yet we're hopin'." In Brambleville," concluded Abijah, with his slow smile, "Wilson Fawcett is reck'nd 't be full 't good as real estate!"

The smallest Pill in the World!

Why do you suffer from Dyspepsia and Sick-Headache, rendering life miserable, when the remedy is at your hand?

TUTT'S

Tiny Liver Pills

will speedily remove all this trouble, enable you to eat and digest your food, prevent headache and impart an enjoyment of life to which you have been a stranger. Dose small. Price, 25 cents. Office, 30 Park Place, N. Y.

is endorsed and prescribed by leading physicians because both the Cod Liver Oil and Hypophosphites are the recognized agents in the cure of Consumption. It is as palatable as milk.

Scott's Emulsion is a perfect food. It is a wonderful Flesh Producer. It is the Best Remedy for CONSUMPTION, Scrofula, Bronchitis, Wasting Diseases, Chronic Coughs and Colds. Ask for Scott's Emulsion and take no other.
